

Filippi

FILIPPI F07

To optimize your crew's speed it is essential that they row in a boat that is designed for their weight. With a range of more than 55 different moulds, almost every crew can find the boat that better fits their needs.

1X SINGLE SCULL F07

The F07 is characterized by a straight bottom line which prevents the boat from vertical movements at the catch and finish of the stroke. This product features a U cross-section, similar to F15, and a stable floating attitude in the water. Specifics offset low skilled rowers mistakes.

The shell is 7.96 m long and well fits athletes into the range of 70 - 85 kg.
