# FILIPPI F17

To optimize your crew's speed it is essential that they row in a boat that is designed for their weight. With a range of more than 55 different moulds, almost every crew can find the boat that better fits their needs.

## F17 2x/2-

F17 is one of the most successful hull made by Filippi and one of the best selling at the moment. This product features a U main cross-section and a stable floating attitude in the water. It can be considered "the ideal" for the 2 pair and double sculls boat classes in pro rowing.

The F17 is improved by continuing advanced hydrodynamics studies: the bow is penetrating and with its V shape easily maintain the direction, the stern is designed to support the weight of the athletes during the catch phase.

This product is a perfect choice for male athletes up to 105 Kg that are looking for a fast and stable boat.
