FILIPPI F39

To optimize your crew's speed it is essential that they row in a boat that is designed for their weight. With a range of more than 55 different moulds, almost every crew can find the boat that better fits their needs.

1X SINGLE SCULL F39

The F39 is our elite, Kevlar/carbon-laminated, full honeycomb core racing shell. Mould design is optimized for higher weights. This product features a wide cross-section shape and increased sideways stability, while a greater volume of the bow compensates more powerful/aggressive rowing technic, at the finish of the stroke. The shell is 8.44 m long and well fits athletes into the range of 95 - 100+ kg. The choice of multi gold medalist Mahe Drysdale (NZL), and Angel Fournier Rodriguez (CUB).
