

Filippi

FILIPPI F45

To optimize your crew's speed it is essential that they row in a boat that is designed for their weight. With a range of more than 55 different moulds, almost every crew can find the boat that better fits their needs.

1X SINGLE SCULL

F45 (70-85 Kg; 7.86 m long)

The F45 mould shows a **slightly "banana" shaped keel line** visible in the stern part (about 2 cm) and it's longer in the **bow** to support heavier athletes. The longer **wet line** offers higher speed at the same stability as F15. U **midship/cross section** is similar to F15.

Boat offers more for athletes over 75 Kg.
